

ANOTHER KNOCK AT EDMONTON

But the Knocker Was Not up in the
Banking Business

An alleged press despatch dated Edmonton which appeared in the Calgary Herald on Wednesday of last week as a knocker for this city, has started on the rounds of the territorial and eastern press and will probably travel about three times round the world before the C. P. R. calls it in.

The despatch says, in substance, that consideration has been caused in Edmonton by the refusal of bank managers to make further loans on real estate in this city, which is supposed to indicate that city property here is approaching boom prices.

The man, who made the dispatch was either the possessor of an untutored mind or else he has Ananias beaten a Jasper clock, as everyone in Canada who knows anything about banking knows that Canadian banks never lend money on real estate, because it is against the law.

Section 74 of the bank act provides that no chartered bank in Canada may lend money on real estate, either directly or indirectly.

Failure to observe this clause is a criminal offense, and the bank manager who attempted to advance money on city lots would wind up in the penitentiary.

BUILDING PERMITS FOR LAST WEEK

The building permits issued since Monday morning last total \$13,623.

Most of the applications are for residences and the class of houses generally are very good.

John A. Paul is building a residence on the north side of Roland street, in the east end, which will cost \$1900.

Frank Croak is building a terrace on the north of Ross street, between Namay and Kintline, estimated at \$1500.

H. W. Silby is building a cottage on Jasper, between Thirteenth and Fourteenth, to cost \$308.

A. York is building a livery barn, 50 by 100, on the west side of First street, between Nelson and Churchill, at a cost of \$2500.

D. W. Macdonald has applied for a permit to build a 14000 block on Second street, on the lot cornering Jasper.

FOUND DEAD IN CALGARY

Body of an Unknown Man Found on
C. P. R. Track

Calgary, Mar. 24.—The body of an unknown man about 50 years of age, supposed to be W. A. Enycart, was found on the C. P. R. tracks here just after train No. 1 passed at 3.20 this morning. The body was horribly mutilated, both legs and both arms being severed.

LAST MEETING OF LITERARY

The last meeting for the season of the Alberta College Literary society was held last evening in the Assembly room. President Lester Clarke presided, and the program presented was much enjoyed. The Literary Society has had a very successful season of meetings, which have proved of great entertainment and also very instructive to the students. The officers of the society were: President, Lester Clarke; Vice Pres. Miss Mae Dose, Secretary, Miss Nellie Burnett, Treasurer, A. J. Law, Executive, Miss Dorothy Huestis and Fred Lawrence.

The "College Echoes," the society journal of which Fred Lawrence is editor, has been a feature of the college, and its columns have been filled with spicy reading. A souvenir number of the "Echoes" is being issued, which will be the handsomest thing ever done into a book.

Following is the programme which was presented at last evening's meeting:—

Opening remarks, President; Piano Solo, "Impromptu in A flat" Miss Huestis; Vocal Solo, "When the Heart is Young" Miss N. Burnett; Reading, "Herve Riel" (Browning) Miss Mae Dose; Vocal Solo, "True, True Hill Death" Mr. J. H. Gilson; Impromptu Speeches; Piano Solo, "Festival March" Misses Stretch and Anderson; Reading, "Defence of Lucknow" (Tennyson) Miss A. Cairns; Vocal Solo, "Still as the Night" Mrs. Allen; Reading, "Courtship under Difficulties" Miss Macdonald; Violin Selection, Miss Stretch.

The impromptu speeches were given by Mrs. Riddell, A. J. Law, and W. Bradley, who all congratulated the society upon their successful season. A. J. Law, treasurer, read the financial statement.

CONSTABLE SHOT BY BURGLARS

Night Watchman Discovers Bank
Robbers at Work

Rochester, N. Y., Mar. 24.—Edward Pullman, constable and night watchman at Solus was murdered early today by burglars who were discovered by him while in the act of rifling the Knapp bank of that village. The burglars first visited the Rome, Watertown and Adenburgh railway depot where they blew open a large safe, stole a small safe and ransacked the express packages. They secured only a small amount of money. They then went to the Knapp bank and were engaged in drilling a hole in the safe when discovered by Pullman.

SETTLERS POURING IN

The spring rush is well under way this week and settlers are pouring in at a rate of from 100 to 200 a day. Every train on the C. & E. is crowded every day, and it is a case of standing room only on the up-trip.

There were eighty people putting up at the immigration building yesterday and during the past week every hotel in the city has been crowded and people have been turned away. There are many settlers in the city who have already located land and are waiting for their effects to come in.

Almost every one of the late arrivals is in a hurry. As soon as they strike town they hurry to the land office, get township plans and then hurry out to get a location. As an almost invariable rule they have sufficient capital to start themselves up in business and many of them are buying horses, wagons etc., as soon as they reach the city, so as to go land-hunting in their own rigs.

As a result the price of horses has jumped 25 per cent during the past week or ten days and it is a poor-looking nag that will not sell these fine days.

Chas. Sutter, immigration agent, states that so far this year Thursday was the banner day, so far as land-hunters are concerned. There are no less than a dozen different parties out. Three parties of six each went out to Lobstick Lake, three more parties went to Paddle River, and three more parties went north with another party, the largest party of homesteaders to go out of Edmonton this year went down on the C. N. R. on Thursday night to Manvel to look for land on the Battle river. They were all Americans, mostly from California, and from Kansas, and some from Nebraska.

The first consignment of settlers' effects that will reach the city, is expected in over the C. & E. some time early next week for a party of Americans who are awaiting their arrival. There are several consignments of live stock on the way which should be in during the week.

In selecting the exhibition grounds for temporary quarters for the settlers, the city and Dominion government made a particularly happy move, as there is stable accommodation with water and every convenience for several hundred head of live stock, which will be a great convenience to incoming settlers.

CAMROSE

A meeting of the rate-payers of Camrose School District No. 1315 was held on March 16 to consider the building of a new school. Mr. Francois Adam occupied the chair, and after a short discussion of the matter the meeting unanimously adopted the proposal to build a school at a cost not exceeding \$5000. As soon as arrangements can be made debentures will be issued and work begun upon the new building.

GRAND TRUNK WRECK

Hamilton, Mar. 24.—The Grand Trunk passenger train due here from Toronto at 3.25 yesterday crashed into a freight train in the yards near Dundas Park. Both engines were wrecked and three freight cars were demolished. Wm. Walker, baggage man, engineer Armstrong, and conductor George Stodard all of Hamilton were injured, the first named seriously. J. D. Thompson mail clerk, Toronto, J. T. Smalley Boston and engineer Bentley were bruised.

DIED OF WOUNDS

Frobisher, Sask., Mar. 24.—Dan J. Campbell who was shot in the abdomen yesterday by Margie Vincleux died at 4.15 o'clock after suffering in a terrible manner from his wounds. Campbell was a farmer residing four miles north of Frobisher.

QUARTERS FOR IMMIGRANTS

City Council Offers to Furnish Exhibition Buildings if Dominion
Government Will Pay the
Expense

Messrs. Smith and Manson, of the city council committee, who were charged with the burden of arranging for quarters to accommodate the influx of settlers who are overcrowding the hotels of the city and finding difficulty in getting a place of temporary residence, have inspected every available premises in the city and have discovered that the best and almost the only place in which they will be able to arrange accommodation for the settlers is the exhibition buildings recently leased by the city from McDougall & Second. Yesterday they wired the Dominion Government through Immigration Agent Chas. Sutter, stating that there was urgent necessity here for much larger quarters than those supplied by the Immigration Hall, and offering on behalf of the city to furnish and light the exhibition buildings provided the department of immigration at Ottawa would refund the money expended at some later date, as the outlay was not properly chargeable to the city.

NO INVESTIGATION

London, Mar. 22.—The House of Commons voted down Chamberlain's measure to investigate the Chinese trouble in South Africa.

BRANDON PUBLICITY CAMPAIGN

Brandon, Mar. 23.—At a special meeting of the publicity committee of the Brandon city council, J. P. Morrow, of St. Paul, was appointed publicity manager for the city at a salary of \$1,300 a year.

NEW PORT ARTHUR ELEVATOR

Port Arthur, Mar. 23.—The Empire Elevator Company have let the contract for the erection of a 3,000,000 bushel elevator on the site south of the new blast furnace.

AUTOS FOR EDMONTON

Another Consignment of Benzine
Buggies Being Imported by
Coriveau and Manuel

Coriveau & Manuel, who are doing a large business with their benzine buggies, have ordered another car load of automobiles from Chicago, which they expect will arrive sometime during next week. They are ordering Ford's this time, all high-potential machines capable of making great time on the good roads which converge on Edmonton. This is the third consignment of cars for this city since the snow went off, and Edmonton now has more automobiles to the population than any other city in America, not even barring the famous resorts of Newport and Ashbury Park.

NOTED AFRICAN DEAD

Jibuti, Somaliland, Mar. 24.—Ras Makonnen, governor of Harar, Abyssinia, is dead. Ras Makonnen was regarded as the most notable subject of Emperor Menelik. He commanded the Abyssinian forces which defeated the Italian troops at the battle of Adowa, Abyssinia, in March, 1896.

ANOTHER BIG LAND SALE

St. Paul, Mar. 24.—The Moose Jaw and Saskatchewan Land Company has sold its entire holdings to the States and Canada Land Company of Minneapolis. The Moose Jaw and Saskatchewan was the largest land company in Canada. It owned immense tracts of land along the main line of the Canadian Pacific west of Moose Jaw. By this purchase the United States and Canada Land Co. is placed among the largest land owners in Canada.

UNHAPPY RUSSIA

St. Petersburg, Mar. 24.—Lawlessness and crime are keeping pace in Russia with the repressive measures of the Government. The columns of newspapers are daily filled with records of murders and robberies and side by side are brief chronicles of condemnation and military executions of political offenders.

THE FIRE STATION

An alarm of fire was sent into the fire station last night which gave the brigade a run for nothing. After chasing for several blocks it was discovered that the fire was in Clover Bar six miles away, where some farmers were burning straw stacks.

THE DELAY OF CIVIC PUBLIC WORKS

The question of the city engineer still looms on the horizon of the city council and threatens to move up again into the foreground and demand the serious attention of the Aldermen at an early date. For while the absence of members of the council has retarded or caused a temporary lull in the storm, no steps have been taken by that body to allay the public discontent and the engineer is popularly regarded today as holding by the grace of fortunate circumstances a position for which a large number of the ratepayers do not consider him qualified.

Some time since the Bulletin took occasion to urge on the city council the necessity of dealing promptly and finally with the question of the city engineer, pointing out that unless such were done the consequences would probably be delay, and might be defeat, of the program of public works which the council is expected to carry out during the summer. The ground was taken that a thorough investigation should be undertaken into the conduct of this important branch of the city's business in the hope either that the result would vindicate the reputation of the city engineer before the ratepayers and secure their approval of the proposed expenditures or that if incompetence or negligence existed such might be revealed before further mischief had been done. At a later date when the passage of time had made an investigation impossible without certain and prolonged delay in undertaking the public works program, the Bulletin again referred to the matter, pointed out that the circulation of a petition calling for the removal of the engineer indicated a lack of public confidence in this official, and censured the council with the unpleasant but imperative duty of deciding forthwith whether such lack of confidence were sufficiently strong and sufficiently general to endanger the passage of the money by-laws and thus prevent the undertaking of the needed public works.

Neither these nor any other means were taken by the council either of restoring public confidence in the engineer and securing the sanction of the ratepayers to the expenditures on the badly needed public works, nor to investigate the cause and the measure of the discontent which threatened and threatens these expenditures. That this dissatisfaction has in any degree decreased is hardly to be supposed and the action of the aldermen responsible has placed the council and the city in the unenviable position that it is a matter of serious doubt whether the ratepayers will endorse by-laws for the expenditure necessary to undertake public works the pressing necessity of which has not been questioned.

The serious nature of the situation lies in the fact that the works contemplated are admittedly needed to meet the requirements of the present and of the immediate future; that they are of such stupendous proportions that their completion would require a full season's work under the most favorable auspices, and that with the delay which has already occurred and that which is now unavoidable, the full benefit of the season's work cannot be secured. We are now in the closing days of March. Supposing the council to ratify at the meeting on Tuesday evening the plans which were laid on the table a fortnight since, the notice required by the city charter would prevent the adoption of a by-law for raising the money before the latter part of April. Assuming that the by-law carried, calling for tenders and letting contracts could scarcely be accomplished in less than three weeks, in which case the contractors would not have the work well under way earlier than the first of June. If on the other hand the council refuse the plans as altered, or if they should go further than this and undertake their belated duty of investigating the work of the engineer or the public dissatisfaction with that official the beginning of the public works will be even further delayed.

THE WEST DESERVES IT

Calgary Herald: The C. P. R. requires an increase of \$40,000,000 in its capital stock, and operations in the west are largely responsible for the huge increase. The big business developing in the west requires big money to keep the railroad properties in condition.

Quite true. And it would have been equally true if the Herald had said that western development demands and is entitled to the \$60,000,000 worth of additional roads and equipment which could have been provided had the C. P. R. stock been sold in the open market instead of turned over to present shareholders at two-thirds of its actual value.

PROPOSED FEDERAL LEGISLATION

The revelations of the exorbitant rates of interest exacted from needy borrowers by money lenders in the large cities of Eastern Canada have led to the introduction in the Federal House of an act to limit the rate of interest chargeable on loans of less than \$500, and fixing a severe penalty on any money lenders charging more than this rate. The maximum rate allowable under the act is 12 per cent, and this rate shall be reduced to 8 per cent from the date of judgment in any suit, action or other proceeding for the money of the amount due. The penalty for charging more than the maximum rate is imprisonment for a term not exceeding one year or a fine not exceeding \$1,000.

3. "An act respecting the Lord's Day" is the name of a bill providing for the better observance of the Sabbath. The bill prohibits sales or remunerative employment, making exception of church sales, sales of necessities and charity. The conveyance of travellers and mails is permitted, also the continuance to their destination on the Sabbath of trains loaded with live stock or perishable goods and the procedure of other trains to the next divisional point. The holding of entertainments for which fees are charged is declared illegal, and the conveyance of passengers for hire and having "for its principal or only object the carriage on that day of such passengers for amusement or pleasure." The penalty for infringement of the act is a fine not exceeding \$40 and costs.

THE INSURANCE COMMISSION

If the insurance commission appointed by the Federal Government does not investigate fully the operations of Canadian Life Insurance companies, the fault will not be that the power of the commission are not sufficiently broad. The order in council authorizing the commission cites its purposes and duties to be:

1. To inquire into,
 - (a) The general subject of life insurance and Life Insurance Systems in Canada;
 - (b) The operations of the various companies chartered by the Parliament of Canada, or by any Province and licensed under the Insurance Act, transacting life insurance in Canada, including expenses of management, investment of funds and other allied questions.
2. To make the like inquiry, as far as deemed necessary, into the operations of companies other than those chartered by the Dominion or a province, transacting in Canada the business of Life Insurance.
3. To inquire into the operation of the laws of the Parliament of Canada relating to and governing the business of life insurance, both as regards Canadian companies and companies other than Canadian, and to consider and report upon any amendments thereto that may be deemed necessary.
4. That the Commissioners be appointed to have power to employ expert assistance, to summon before them witnesses and require them to give evidence on oath orally or in writing or on solemn affirmation, if they are persons entitled to affirm in civil matters, and to produce such documents and things as such Commissioners deem requisite to the full investigation of the matters hereinbefore referred to, and generally to exercise all the powers conferred by the said Act.

The serious nature of the situation lies in the fact that the works contemplated are admittedly needed to meet the requirements of the present and of the immediate future; that they are of such stupendous proportions that their completion would require a full season's work under the most favorable auspices, and that with the delay which has already occurred and that which is now unavoidable, the full benefit of the season's work cannot be secured. We are now in the closing days of March. Supposing the council to ratify at the meeting on Tuesday evening the plans which were laid on the table a fortnight since, the notice required by the city charter would prevent the adoption of a by-law for raising the money before the latter part of April. Assuming that the by-law carried, calling for tenders and letting contracts could scarcely be accomplished in less than three weeks, in which case the contractors would not have the work well under way earlier than the first of June. If on the other hand the council refuse the plans as altered, or if they should go further than this and undertake their belated duty of investigating the work of the engineer or the public dissatisfaction with that official the beginning of the public works will be even further delayed.

THE TELEGRAM'S STUNT

The Winnipeg Telegram is sorely displeased because the Minister of the Interior has not discharged from the employ of the department a man who is not, and has not been in the employ of the department. When the misadventures in connection with the Prince Albert elections were made known the Opposition press characterized the Minister as a man who was not, and has not been in the employ of the department. When the misadventures in connection with the Prince Albert elections were made known the Opposition press characterized the Minister as a man who was not, and has not been in the employ of the department.

self-prepared hypothesis the basis for an assault upon the head of that Department for not discharging and prosecuting the offenders. Informed by the Minister that only one of the deputies had been employed by the Department and that he had been promptly dismissed and reminded by the Premier that the administration of justice was under the control of the Provincial and not the Federal Government, the ground disappeared from beneath the feet of the critics. So trifling a matter as the removal of the foundation however was not considered as sufficient reason either for a candid explanation or an apology from the Opposition press. The Telegram however, probably wins the medal by seizing the dilemma by the horns and allowing itself to be tossed into the prophetic altitude whence it prognosticates that honors and fortune will be showered on the offending deputies. Political prophecies, which are thrown out to deflect attention from the debris of an exploded fabrication are occasionally entertaining and always harmless, but never more so than when the only evidence in support of the prophetic advancement of an individual is the fact that he has been promptly dismissed for cause, by the Government which is pictured as his future benefactor.

STORM KING CLAIMS VICTIMS

Eighty Nine Lives Lost and Fifty Four Ships Destroyed

Boston, Mar. 24.—A total of 85 lives and property aggregating hundreds of thousands of dollars in value was exacted by the storm king along the coast of New England and the maritime provinces during the last winter.

IN THE FEDERAL HOUSE.
Ottawa, March 19.—There were 65 questions on the order paper when the House met to-day. The greater number were answered. One question, asked by W. D. Staples, M.P. for MacDonald, was not answered. The Minister of Agriculture said that it would take three or four weeks to prepare an answer. It asked for some information about horses affected with glanders.

Hon. Mr. Oliver told Mr. R. L. Borden that the subsidy to the Qu'Appelle, Long Lake & Saskatchewan Railroad and Steamboat Co. had been \$1,235,344, and it was indebted to the government for \$1,154,457 principal and \$32,647 interest, the government holding 493,269 acres as security. In reply to Dr. Roche, Mr. Oliver said that the district of Keewatin was governed under the Keewatin act from October of 1876 to August 31, 1895. Keewatin was not included in the new provinces. It was brought under the Northwest act by proclamation on July 24, 1895.

Hon. Mr. Paterson said that the government had been approached through a representative of the German government with a view to the removal of some of the trade restrictions between the countries. The suggestions so offered will be taken into consideration by the ministers in framing the revised tariff.

Sir Wilfrid Laurier said that \$460,361 had been paid on the Georgian Bay canal survey.

Sir Wilfrid Laurier said to Mr. Martin (Queen's) that although the law contained no explicit provisions under which worn silver can be redeemed, small amounts have been redeemed from time to time. To overcome any difficulty it is proposed to introduce legislation providing for such redemption. The cost of redemption was very small.

Mr. Oliver stated to Mr. Ames that \$56,287 was paid to the North Atlantic Trading Co. between July 1, 1905, and Dec. 31, 1905. To Mr. Lake Mr. Oliver said that patents have been issued, or are in the course of being issued, for all C. P. R. lands, except those

unsurveyed, a total area of 1,541,585 acres remaining yet to be patented.

Sir Wilfrid Laurier, in reply to a question, said that the cost of the telephone committee of last session was \$15,000. In reply to Mr. Ingram the premier said the government was aware that certain United States officials collected \$2 per head from many Canadians who cross the boundary. The government had heard that United States consuls had appointed captains of steamers to collect the tax under the United States law. The government had made representations to the United States in this matter. The United States generally declined to interfere with the discretion of its officials.

In answer to a question, Sir Wilfrid said, "the government of Newfoundland is aware that we are ready to enter into communication with them at any time they choose to discuss the subject of bringing the island into confederation. With regard to the British West Indies we are prepared to extend our relations with them but we are not prepared at this time to invite or encourage a political union."

In answer to Mr. Hughes, Hon. L. P. Brodeur said that the cost of the new steamer for winter navigation between Prince Edward Island and the mainland would be \$215,000.

Sir Wilfrid said that the Marconi wireless station was complete on the Canadian side and that as soon as the new English station was complete the system would be ready for business.

To Mr. Lake Hon. Frank Oliver said that the only Indian reserve placed in the market since January 1905, was a portion of the Assiniboine Indian reserve. There were 34 quarter sections sold for \$35,345, or an average price of \$6.74 per acre. It is the intention to sell a portion of the Stony Indian reserve, south of Battleford, a portion of the Alexander reserve, about 25 miles from Edmonton, and a portion of Ojota Indian reserve situated at Kamaskia.

In reply to Mr. McCarthy, the Minister of the Interior said that four sales of agricultural or grazing lands were made in Manitoba and the North West by the Dominion since July 1, 1896. They were to the Milk River Cattle Co. and the Saskatchewan Valley Land Co.

In answer to Hon. Geo. E. Foster, Mr. Oliver said that no block of public lands in Alberta and Saskatchewan since 1905 had passed out of the hands of the Dominion into the hands of private individuals or corporations.

Sir Wilfrid Laurier said that the Government was not aware of any communication being sent by the President of the United States to the Imperial Government asking for a preservation of the scenic effect at Niagara Falls. Some motions for

papers were passed after which the House adjourned.

The report of Judge Myers dealing with the charges against R. C. MacDonald in connection with the half-breed scrip, was presented to Parliament to-day. The report says: "From the light of the sworn testimony and the documents produced, I have no hesitation in reporting that such conduct was generally fair and honorable, and they should be honorably acquitted of any misrepresentation of dishonest or fraudulent practice in obtaining from the half-breeds the assignments and orders for the scrip claimed by them under the order in council of August 13, 1904."

In reply to Mr. Jackson (Selkirk), the premier said there were 17 members of the civil service who had the necessary rank entitling them to wear the Windsor uniform.

W. F. Maclean introduced in the House today a bill dealing with the indemnity and pensions. He wants the bill of last session on the subject repealed. He does not interfere with the salaries of the judges or the increase in the premier's salary.

In answer to W. F. Maclean in the House today Sir Wilfrid Laurier said that telephone legislation would be introduced in an amendment to the railway act this session.

MCCARTHRU MAY GET CONTRACT
Ottawa, Mar. 22.—There is current talk tonight that J. D. McArthur of Winnipeg, is the lowest tender on the western section of the transcontinental and also the eastern. So far nothing official is to be had. The awards are said to be before Mr. Scriber.

EDMONTON MARKETS

SETTLED CLAIM TO LAND

A commission sent out by the Department of the Interior to readjust the claims and issue titles to the settlers at Lac La Biche returned to the city yesterday afternoon, having finished their labors.

The commission was composed of A. G. Harrison, Dominion Land surveyor, who surveyed the Lac La Biche settlement in 1889, Wilfred Gariepy, barrister, of Edmonton, and Rev. Father Grandin, who has been living among the Lac La Biche people for a long time and was acquainted with their claims and circumstances.

Among the settlers out there, there are many who had taken out applications to homestead, and some who held squatter's rights to lands on which they settled prior to 1870, but very few had made any attempt to get patents, and with the proverbial easy ways of the pioneer, many of them were holding their claims to the land on which they lived, in very light esteem. As settlers from the east and the United States were crowding in and in some cases were getting their squatter's rights away from the old settlers at merely nominal figures, the Dominion Government took action to protect them in their rights before it was too late.

Altogether eighty claims were adjusted and recommended for patents, which will be issued from Ottawa, and the Lac La Biche settlers, to show their appreciation of the work done by the commission, tendered the commissioners an address and banquet on the night before their departure.

Lac La Biche is attracting a great many land hunters this spring. The land so far surveyed is waterfront claims and all outside of that along the lake front has to be taken up under squatter's rights as the surveyors have not been able to keep ahead of the rush. Notwithstanding that a great many are going into that country, and when the subdivision is made there will be many homesteaders already on the ground.

LONDON FUR SALES

One of the greatest surprises of the Lampson and Hudson's Bay March fur sales was the advance in the price of lynx skins, in the face of the heavy catch in the north country during the past season.

It is estimated that somewhere between 40,000 and 50,000 lynx have been marketed in this city within the past year and although three-quarters of these were taken by the United States market, it was expected that a slump in the London price would occur on account of the unprecedented catch. On the contrary, however, the price advanced five per cent over last year; lynx being in good demand at an average price of \$7.50 per skin.

The advance in silver fox was also in the nature of a surprise, considering the increased number offered. Yesterday there were 800 silver fox skins sold, as against 650 at the same time last year, and the price ruled fifteen per cent higher.

Martin showed an advance of thirty-five per cent, notwithstanding that there are 22,000 listed for sale, as against 20,000 last year, and while fox, of which there are few sold here, showed the remarkable rise of seventy per cent.

There were 50 per cent. more cross foxes offered this year than last and 25 per cent less red foxes. The cross fox showed the effect in a ten per cent decline, and the reds in a ten per cent rise.

The Edmonton fur catch represented on the London market in the Lampson and Hudson's Bay sales, and including the lynx shipped to the United States runs well over one million dollars. This does not by any means represent the entire catch marketed at Edmonton for the year, however, as there were the January sales by the Hudson's Bay and Lampson, and the Revillon purchases, which are shipped direct to their own factories and never appear on the market, besides the large amounts of skins other than lynx which go to the United States and cannot well be kept record of.

It is difficult to estimate what the actual fur catch handled through Edmonton is, but it is a safe estimate to say that it runs over \$1,500,000, and this year, all told, may crowd the two million mark pretty close. Every dollar of this business is handled by Edmonton merchants.

CONFERENCE IN UPROAR
Philadelphia, Mar. 23.—The controversy between the Methodist concern and Typographical Union No. 6, of New York, came up for discussion at today's session of the Philadelphia Methodist conference. A resolution was presented expressing confidence in the book concern and endorsing its attitude on the open shop question. His resolution met with the disapproval of many persons whose charges are among the laboring classes. It threw the conference into an uproar.

CALGARY'S TRAGEDY
Herald: The sole topic of conversation last night and today was the tragedy which occurred in connection with yesterday's insignificant fire on the stable in the rear of 325 Thirteenth avenue east in which Gordon McRae and Audrey Gay were burned to death. The scene of the fire, when the fact became known that a body was found in the loft, was a dramatic one. Mothers who had children who were in the habit of playing around the unoccupied barn were standing around in terror of what the search of the firemen would reveal.

A small door in the loft was open when the firemen directed their stream of water on to the building, and the first water which entered through the door revealed something which at first looked to the firemen and on-lookers to be the body of something which was thought to be a dog or a carcass of mutton.

At this time it was not known that there were any children in the building. Captain Zeigler, of No. 1 hook and ladder company started up a ladder into the loft when the fire was under control, and discovered the object which had been noticed near the door to be the body of a boy, lying face downward. It proved to be that of the Gay child.

Further search by the firemen revealed the body of the McRae child, who was lying in almost the centre of the loft. He had completely covered his head with the hay, and by this means had prevented the flames from reaching his face to the same degree as that of the other child.

The facts were not at first obtainable as to who the boys were. Mrs. Gay was standing around the burning stable and apparently was apprehensive of the fate of her only boy. Chief Smart was informed by the bystanders that the two boys were in the habit of playing together, and prevailed upon the other women who were gathered round the fire to take the bereaved mother home. The sad duty devolved upon James Young to inform his former partner, W. McRae, of the impression which prevailed that his son was one of the victims. Mr. McRae was found at his residence and taken over to the undertaker's parlors. He recognized one of the bodies as that of his son Gordon, who would have been five years old next month. The features of this little lad were recognizable and the father also identified portions of the clothing, and one of the shoes.

That other children were not burned in the same fire is surprising. Several children were in the habit of playing in the stable, and as it was unoccupied, no attention was paid to them. Entrance to the loft was gained by a ladder nailed to the wall in the north-west corner, and it was evidently near this opening that the fire was started. A little boy named Woods had been with the two victims when they were out to play after dinner, and he also had been up in the loft. He told his mother they had a fire, but no attention was paid to his words. After this the joyful shouts of the boys were heard in the barn. Apparently the boys started a small fire which got beyond their control and blocked their escape down the ladder.

Whether the small door from the loft at the opposite corner was fastened or not is impossible to say. The firemen say it was open when they arrived, and the corner of the barn above the ladder was burning fiercely. The boys had been driven to the extreme end of the barn, and whether they were overcome by the choking smoke from the hay, or were unable to open the door, is a fact which will never be known. Dr. Crawford, after hearing the evidence of the fire chief and Mr. Dobson, who sent in the alarm, did not consider an inquest necessary, as everything appeared to have been accidental and no blame attached to anyone. Joshua Dobson, the man who turned in the alarm, was not nearer the stable than a block and a half, and did not know anything about children being in the place.

Fertile Farm Lands Near Alberta's Capital

Leduc, 20 miles south of Edmonton, on the C. & E. Railway, is noted for its rich agricultural lands, and large production of wheat and oats, of first-class quality. Cattle-raising and dairying are also important industries, and large quantities of butter and eggs are marketed at this point. The country is partly wooded, and there are large coal deposits in the district; also abundance of water at from 12 to 30 feet in depth. There are numerous lakes, one being partly within the town limits. Fish and game are plentiful.

Homestead lands may be obtained at a distance of 20 miles from town. Other lands range from 36 to 540 an acre. The town itself numbers upwards of 400 inhabitants, principally Canadians and Americans, and is now applying for incorporation. Among the business establishments are a chartered bank, 3 grain elevators, 2 grain warehouses, creamery, pork-packing house, flour mill, planing mill, general stores, hardware stores, also hotels, and 5 churches. Telegraph and telephone systems.

Cattle marketed in 1905, 600. Eggs, 30,000 dozen.
Hogs, 700. Potatoes 25,000 bushels.
Coal, 1000 tons. Grain, 700,000 bushels.
Butter, 150,000 pounds.

—At Grace church tomorrow Rev. A. S. Tuttle will preach at both services.

—The Douglas Co. will occupy their new quarters in the Norwood block on Monday.

—The Young People's Guild of Queen's avenue church will hold a social on Monday evening.

—Rev. T. T. Reikie, will preach his farewell sermon in Queen's avenue church tomorrow.

—The Vermilion Signal is the name of a new four-page weekly published at Vermilion, Alta.

—The executive of the Edmonton Liberal association meets tonight in the Young Men's Liberal club rooms at 9 o'clock.

—A. F. Ewing, barrister, has severed his connection with the legal firm of Short, Orcus, Biggar and Ewing, and has opened offices in the Norwood block.

—The set of bronze medals, which was won by the Thistles together with the Stephens trophy on Wednesday night, have been presented to the members of the team.

—Rev. W. Wyman, will preach in McDougall church at the morning service tomorrow. Rev. Mr. Heusla will preach in the evening, his subject being "The Secret of Character."

—Alberta: by a vote of almost four to one the ratepayers of the city yesterday decided to give the city engineer power to duplicate the present municipal lighting plant at a cost of \$10,000.

—HARRIS LEAVING HOME FOR THE HOME: Harris left his home in Vermilion and moved with his wife and family into the city to live. Yesterday Mr. Harris bought a handsome residence on Seventh street from E. J. Taylor.

—"The White Star of Heaven," perhaps one of the greatest sacred songs ever written, was composed and written by Mr. Francis Pirih who appears on Monday evening with the Firth-Eaton concert company in Robertson's hall.

—Calgary Alberta: A G. T. P. survey party is rapidly nearing town. They are outfitting at the Hudson's Bay Company's store in Calgary, and are carting supplies to their camp, which lies about fourteen miles northwest of the city limits.
